PROSPECTUS OF THE "NATIONAL MON UMENT,"

A weekly journal to be published in Washington, under the sanction of the Washington National Monument Society. JAMES C. PICKETT, EDITOR AND PUBLISHER.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscollaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics: foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the exception of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of WASHINGTON would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestle memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive notting more, and he asks nothing more, than a very moderate compensation for his services. Not editor, and to conduct the paper, nor the Society in any manner held pecuniarily responsibl

mer held pecuniarily responsible.

To give the public an idea of what may be done with the journal it is proposed to publish, it may be stated that a list of fifty thousand paying subscribers, at two dollars each, will yield an annual net profit of from fifty to sixty thousand dollars.

The postmasters, and secretaries of all organized bodies throughout the Union, are respectfully requested to act as agents in obtaining subscriptions, thus aiding the great object of our exertions.

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its succees by publishing this prospectus.

All moneys will be remitted, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlees; Washington.

OFFICERS.—Millard Fillmore, ex-officio President; Arch. Honderson, First Vice President; Walter Lenox, (Mayor of Washington.) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAGERS.—Winfield Scott, N. Towson, Thos. Munroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Seaton, M. F. Maury, T. Hartley Crawford, Benj. Ogle Tayloe, Elisha Whittlesey.

Terms.—The Monument will be printed on a double-royal sheet—the paper and type being of the best quality—and in quarto form, containing sixteen large pages, that it may be more easily preserved. The price will be two follars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any eredit, none can be given.

Societies and clubs will be furnished with the Monument on the following terms: 3 copies for \$5.5 copies, \$5: 10 topies, \$15: 6c.

who are disposed to patronise the MONUMENT are ted to forward their names to the General Agen without delay. The first number will be published early in May, and the second on the second day of August, and weskly thereafter; time being allowed for the Prospectus to be circulated, and for the segnets to make returns. As all subscribers will be contributors to the Monument tself, their names will be published in the paper. WASHINGTON, April 23, 1851.

No exhibitor of Agricultural Implements at the above named Fair, having received one-helf the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Saltimore in October and November, 1850, the first premium (a heavy Silver Medal) was awarded to Exra Whitman, jr., for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his Improved Wrought from Railway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1851.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Thrashing Machines, 500 Cultivators, Reaping Machines, Wheat Drills, Corn and Cob Grushers, Bug Stone Mills, Gider Mills, Hay and Cotton Presses, logether with every article which a farmer or planter could wish in the prosecution of his pursular, all of which will be sold on reasonable terms, at wholesale or retail.

lee Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—
1st. The astonishing rapidity of the process, surpassing belief—hence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prised.
3d. It does not require a tenth part of the labor that the common Freezer does.
4th. It does its work better, producing a better article, in every respect, than by any other mode.
5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.
The annexed testimonial from the Proprietor of the Entaw House will put to rest all doubt.
"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

Newark Academy.

Newark Academy.

By a late re-organisation of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, herestofore merged in the College, and of course subjected to all the erils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifics, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furnitures of the study-rooms and dermitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus mecessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College as can be profitably enjoyed by academical students.

FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be interred from the fact that, since the establishment of the school, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseasee contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Checalstry, Physiology, History, Statural Philosophy, Physiology, Physiology, History, Statural Philosophy, Physiology, Physiology, History, Statural Philosophy, Physiology, Physiolo

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS.—
In T. JAS. L. HAMILTON.—DEAR SE: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet, the great benefit which I have derived from its use, and the salutary effects which I have witnessed from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have of it, this formal scknowledgment of its sanitary virtues. My, own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the discover functions, great debility, nervousness, smeciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertige and congestion in the head, and many other symptoms indicative of the worst type of the discose, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the efficacious, after the trial of a vast number of other reme-dies without benefit. Your medicine is as pleasant to the laste as a cordial, and in my experience corrects all de-rangement of the atomach, reastores the wasted or enfeebled

negries of the digestive organs, and imparts strength and canimation to the whole system.

VALUABLE LAW BOOKS. W E invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

English Common Law Reports,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. General Sharswood and George W. Biddle, Esqrs. 1 vol. 870.—45 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports-Pleas and

New English Ezchequer Reports—Pleas and Equity.

Including McClelland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Meeson, Crompton, Meeson and Roscoe, Meeson and Younge and Collyer—in Equity.

Meeson and Welsby, in 19 vols., Welsby, Huristone and Gordon, vol. 1, published and ready for delivery.

**Per We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

Messrs. T. & J. W. Johnson:

Messrs, T. & J. W. Johnson: -In reply to your letter, I can with great Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncom-mon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library. JOSEPH STORY.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have snjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landlord and Tenant, Crabb on Real Property, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will alm, to retain this high character.

Seven Folumes—§24 50.

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain seventeen English volumes condensed in seven.

"We respectfully commend this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Crown Cases Reversed. Three Volumes—49.

From 1796 to 1840—To be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of Ragland, are of the first hisportance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the autible.

The three volumes already published contain all the Reversed Cases since Leach.

REAL ESTATE IN VIRGINIA FOR SALE.

The subscriber has not yet disposed of his real estate
in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms.
It consists, first, of 947 acres of land, in from two and a half to four miles of Brentsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and
from four to five miles of the Orange and Alexandria Railroad, which will be completed to Brentsville this
year. This land is well adapted to improvement by the
use of clover, plaster, guano, &c. It is heavily timbered,
and finely watered, having lasting springs of the purest
water. It is capable of being divided into five or six good
sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a
company, or will divide it to sait purchasers, at prices
ranging, according to quality, at from \$2\$ to \$8\$ per acre. I
will only require one-fourth of the purchase money in
hand, and the balance. I will divide in three annual phyments, to bear interest from the date of sale, to be secured
on the property. Land is rapidly rising in value in the
neighborhood, and I ofter great inducements now, as I
wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or blacksmith, with two dwelling-houses, kitchens, blacksmith,
carriage, and wheelwright shops, and other necessary
buildings, \$1600 is now my price for this property—on
the same terms as the land. It is within a mile and threequarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turnpike, just above Buckland, on which are a good dwellinghouse, a large wheelwright shops, kitchen, sabele, dairy,
and smoke-house. It would make a good tavern stand,
and the shop a good stable. For this property I will take
\$500—on the same terms.

Fifthly. A lease lot in Haymarket, with a pretty good
house, kitchen, a large shoemaker's shop, stable, REAL ESTATE IN VIRGINIA FOR SALE.

BALTIMORE AND WASHINGTON RAILROAD.

ON and after WEDNESDAY next, 9th Instant, the station on Pennsylvania avenue will be vacated, and the new one on New Jersey avenue occupied.

The Passenger trains will leave the latter, commencing at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandles:

1st. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless complied with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has caused much and serious inconvenience.

FURNISHING MAIL LOCKS AND KEYS.

POST OFFICE DEFARTMENT, March 14, 1851.

I T being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July lext. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being to extend and continue the contract in force for an addi-tional term of four-years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term

tional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fulfil faithfully the terms and conditions of his contract, the Postmaster General and deem such requirement essential to the interests of the service. In case of the failure of the contract of the service. In case of the failure of the contract are with any other party or parties contract, and to contract any

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW.

BY FREEMAN HUNT, EDITOR AND PROPERTOR.

THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1858, and each volume now contains more than seven hundred large cotavo pages. A few complete sets of the Magazine risky be obtained at the publisher's office, 182 fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine from distinguished statesmen:

When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, afthe finatures of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded to I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information highly useful not only to the merchant, but to the stateman, to the cultivator of the earth, to the manufacturer to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally personized. Offering you cordial assurances of my safegm and regard, I am truly your friend and obedient servant.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Marchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the marchant it seems quite indipensable, and to the statesman and man of general information almost equally destrable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

the scientific treatment of the various diseases with which the human system is afflicted, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steambout inndings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unvarieties of the Messra, liedges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Erie, the Nisgara flowing missistically towards the Falis, extensive forests, and the "Queen City of the Lakes," with its moving panotants of steambout and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable system expense, and is sufficiently effoncious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the factures and conveniences for innocent and healthful gymnastic success.

An enlightened public sentiment has every where repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have importatively demanded "Reform." A return from a wide and fatal departure from the simplicity of "acture" laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Tradecastly, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and sementably encacious mode of curing the sick; for that systems of drugging, depleting, and cauterising, which, in obstating the mastery over disease, too frequently places the patient beyond the reach of further anneyance.
